PROJECT PROFILE

This academic project was a 4 months project. In this project I came to know about the practical applications of all the theoretical subjects I studied till now. There is project as mentioned below:

Project Name and Module 1 BE	Student internal marks processing
Duration	4 Months (Jan 2018 – Apr 2018)
Team Size	4
Nature Of Project	java Project
Platform Used	Windows XP
Software Used	MySQL 5.0
Objective	HoD and Principal also like to see these marks hence a multi user system that will allow each faculty to enter marks from her/his room and others to view should be of value to college.

Description of the project

Student Internal Record System can be used by education institutes to maintain the records of students easily. Achieving this objective is difficult using a manual system as the information is scattered, can be redundant and collecting relevant information may be very time consuming.
